FIBREGLASS POOLS

Partnering with:

SPASA Queensland's Best Fibreglass Pool Builders in 2021, 2023 & 2024

# The Aqua Technics Pools Story

The purchase of your very own swimming pool is an exciting time! A cool-off in summer, recreation for the kids and poolside barbecues have infinite appeal, yet with so many companies to choose from, how can you be sure you are getting the very best pool for your investment?

## LOOK NO FURTHER

Aqua Technics Pools has been manufacturing award-winning fibreglass pools since 1976. Right from day one, we knew that if we wanted to be the leading swimming pool manufacturer in Australia, we also had to lead the way with product development and technology. So we began burning the midnight oil researching new manufacturing methods and materials. and you will be pleased to know that this continues right down to this day.

That's why Aqua Technics Pools has the largest range of technologically advanced, award-winning swimming pools in Australia. You can rest assured your pool has been built to Australian Standard 1838 under license number BMP 520101, is infused with Graphene Nano-Tech® giving you our strongest pool ever and has award-winning Pool ColourGuard® protection, with brilliant colour and superior fade resistance.

We stand behind our pools so you can take the plunge with confidence, knowing that you have invested in the very best swimming pool available – a pool built stronger to last longer from the team at Aqua Technics Pools.

Jandakot Manufacturing & Administration Facility

# Purpose Built Manufacturing Facility

We have taken this extremely important step in order to produce a superior quality product. Each of our pools is manufactured in accordance with a Quality Management System as per the requirements of International Standard ISO 9001 and supplied to comply with AS/NZS 1838:2021 under license number BMP 520101. Obtaining this accreditation means we are measured and tested by an authorised, independent auditor and is not easily achieved. Any pool builder can say they build to, or better than, the Australian Standard. For your peace of mind, always ask for a license number. Our pools are also International Code Council certified – ICC-ES.

The strength of our pools is backed by our extended warranties, which go above those standard in the SPASA contract.

## OUR PROMISE TO YOU, THERE SIMPLY IS NO BETTER SWIMMING POOL

Our association with MFP Easy dates back to 2017. They have been our Dealer of the Year recipient several times and just received the 2024 Directors Award for Excellence and we are proud to have them on board. MFP are professional in every aspect of their business, from dealing with us as shell manufacturers right the way through to the installation of the actual pool shell. Their dedication to the customer experience is evident with their great reputation and high level of customer referrals. Like us, they are a family owned and operated business and working with your family, MFP Easy will not only deliver a high quality swimming pool but the service and support that create a beautiful outdoor entertaining area that you will enjoy for years to come.

# The Aqua Technics Edge

## WHAT SETS US APART FROM THE REST?

**GRAPHENE  
TECHNOLOGY**

Revolutionary, patented process infusing graphene nano technology into every Aqua Technics pool. Built like no other, a Graphene Nano-Tech® pool is our strongest pool ever.

**FADE  
RESISTANT**

Aqua Technics pools have patented Pool ColourGuard® surface protection, which resists the effects of UV rays and chemicals, offering superior fade-resistant protection.

**QUALITY  
ASSURED**

Certified to build to AS/NZS 1838:2021 under license BMP 520101. We are measured and tested by an authorised, independent auditor. Anyone can say they build to the Standard. For your peace of mind always ask for a license number. We also comply to the AS/NZS ISO 9001 Quality Management System.

**ANTI-  
MICROBIAL  
PROTECTION**

Microtech Anti-Microbial Pool Protection prevents surface algae growth, making it exceptionally hygienic and safer for your family. It's 100% safe and gentle on the human body.

**PRECISION  
MOULDS**

New designs are manufactured using moulds built to exacting tolerances. The edge beams are true, the shapes geometrically perfect and the surface finish is without peer.

**SUPERIOR  
STRENGTH**

Full sized structural ribs, fully supported steps and bench seating and a wider edge beam mean the strength is built into the pool. New high strength fibreglass produces a stronger, stiffer pool – up to 20% stronger.

**SUPERIOR  
MATERIALS**

All pools are manufactured using high performance, corrosion resistant, eco-friendly fibreglass with improved strength and stiffness. Our onsite gelcoat manufacturing facility means daily batching of materials for a better product. Only specialty materials are used - no general purpose products.

## We only build pools with 200mm edge beams

The design elements of our edge beam, coupled with the 200mm beam width, means the strength is engineered into the pool. This means there is no need for secondary engineering works like a bond beam, however, by adding it you are getting a pool with exceptional strength that will withstand installations in all soil types. No other pool company can offer you this level of strength.

# The only proven & patented Pool Interior Surface Protection Technology

Exclusive to Aqua Technics, Pool ColourGuard® is the only patented dual surface protection system for fibreglass pools world-wide. The clear layer protects the colour layer and acts like sunscreen for your pool, protecting it from colour loss and weathering. Pools with a simple one coat application do not provide protection for the colour.

We dare you to compare the benefits:

- Resists the effects of UV rays and chemicals
- Pool colour that will look better and last longer than any other
- High gloss finish never before seen on swimming pools
- The only pool surface protection system with a Product Excellence Award

## The world's first fade-resistant surface protection system for fibreglass pools

**Beware of imitations. Only genuine Pool ColourGuard® can offer you these benefits.** Low Beale, Inventor.  
Standard conditions of water chemistry and temperature are to comply as per AS/NZS 3633.

Colours, by nature are a personal choice. At MFP Easy, we have chosen 3 visually stunning colours to offer our customers. In different surrounds, each presents with their own unique appeal. Consider the external surrounds of your pool area, with trees, gardens, fencing, all playing a part in the overall look of the colour. For example; darker pools enhance the reflective qualities of the water while lighter colour pools look bigger in smaller areas as they blend in and create an illusion of space.

These 3 popular colours suit any of our pool designs and look amazing both day and night.

**Crystalite® ColourGuard Series – Twilight**

**Crystalite® ColourGuard Series – Horizon**

**Crystalite® ColourGuard Series – Silver Mist**

Having an in-house gelcoat production division means we can also create a range of custom colours. These colours require a greater lead time for delivery and incur a pricing premium.

*Every effort has been made to represent the true colours, however variations may occur due to the printing process. We recommend viewing colour samples before making your final selection.*

# Compare the benefits of Pool ColourGuard®

When you choose a pool with Pool ColourGuard® you can expect the following unique benefits:

## Superior Fade Resistance

Your pool will retain its vivid, brilliant colour for many, many years.

## Brilliant Gloss Finish

A pool with Pool ColourGuard® has a brilliant, high gloss finish never before seen on swimming pools.

## Resists Cracking

Pool ColourGuard® resists the degradation of UV light radiation and eliminates a tendency to crack from UV exposure.

## Prevents Chalking

A pool with Pool ColourGuard®, offers vastly improved weathering resistance, preventing the coatings from chalking.

## Pool Colour That Doesn't Change

A pool with Pool ColourGuard® will have negligible colour change and will maintain its beautiful appearance and look better and last much longer.

## Lasting Gloss Retention

Your pool has a smoother, high gloss surface that resists algae, staining and is easier to clean, resulting in less maintenance of your pool.

## Protection Against Blistering

Your swimming pool is protected from minute blistering within the cosmetic surfaces and deep down structural osmosis blistering.

## Greater Hydrolytic Stability

The aesthetic and structural laminates are fully protected from the aggressive nature of water. The chances of "osmotic blistering" have been dramatically minimised.

## No Bleach Marks

The pool colour is separated from the bleaching effects of chlorine, bromine or other oxidants by Pool ColourGuard's® initial coat.

## Prevents De-Lamination

The unique blend of specialised materials used in Pool ColourGuard® gives the pool greater strength, durability and blister resistance.

## Stunning Range Of Vivid Colours

The Pool ColourGuard® range of stunning colours has full protection from the degrading effects of chlorine and other pool chemicals.

GRAPHENE  
NANO-TECH

# What is Graphene Nano-Tech® and what are the benefits?

## INNOVATIVE TECHNOLOGY IN FIBREGLASS POOLS

With extensive research and development Aqua Technics has now infused Graphene Nano-Tech® into the structure of their pool shells. These lighter, stronger, more flexible shells are the next generation of fibreglass pool technology. Aqua Technics continues to lead the way in Australian manufacturing of pool shells.

**30%**  
stronger

**30%**  
lighter

**Higher**  
resistance

- Graphene is 200 times stronger than steel & stronger than titanium, giving you our strongest pool ever
- Increased strength & rigidity of the pool's structure
- Higher flexural strength
- Our new technology reduces weight while improving rigidity and flexural strength
- Pools are stronger without being heavier
- Lighter for transport & crane lifts
- A Graphene Nano-Tech® pool has a higher resistance to water and moisture transpiration and chemicals
- Increased laminate durability
- Improved corrosion barrier

Escape to paradise with the Villa Series and experience a luxurious hideaway in your own backyard with this stylish design.

### SERIES FEATURES

- Entry steps located at the shallow end for easy access
- Wider second entry step creates the perfect spot to sit back and relax (not on the Istana)
- Deep end swim-outs on each side

## Entertainer Series

Create your own backyard sanctuary and relax poolside on warm summer nights with these indulgent designs.

### SERIES FEATURES

- Full-width beach entry area and wide entry steps perfect for young children
- Extended bench seat down one side
- Safety ledge around two sides
- Deep end entry and exit steps

# Helpful and interesting aides that we can assist with

1 Retaining 2 Water feature including LED lighting 3 Fencing examples  
4 Spa Jets 5 Insulated hand rail 6 A typical heat pump 7 2 Types of filtration  
8 Hi Tech UV Sanitation to lower chlorine levels

# Pool designs - quick reference guide

Our quick reference guide makes selecting the right pool to fit your outdoor area easy as can be. All of our designs are ordered from smallest to largest, so all you need to do is choose the one that is the perfect fit for your outdoor area.

## Family Owned & Operated

MFP Easy has been a family owned and operated company since we first began. Many happy memories are created in your backyard pool so it's only natural that a successful swimming pool company should be a family business. We pride ourselves on having the best range of designs, colours and surface finishes. Whether you are looking for a design for fun, relaxation, exercise or all three, we have the perfect pool for you. We understand that buying a pool is a considerable investment and acknowledge the importance of choosing your pool builder is a critical step. We encourage all prospective pool buyers to read reviews, listen to word of mouth referrals, and to understand thoroughly what is being offered.

In South East Queensland, we believe that MFP Easy is the premier pool building company.

Aqua Technics have been building fibreglass pools for over 40 years so you can trust they have the knowledge and expertise to build the best swimming pool shell available today. Our combination with them ensures that the best business is installing the best pool shell.
